Flat 1/1, 28 Hathaway Lane, Glasgow, G20 8NE

Summary

- Feature film experience.
- Problem solver.
- Familiar with PC, Mac and Linux.
- Full clean UK driver's license.
- Can work a 14 hour day with a smile.

Relevant Experience

Camera Department

Production Attic LTD & Freelance (2004 – ongoing)

I have operated camera and lighting equipment for a range of different productions on location and in studio. Short films, corporate videos, music videos, multi-cam live events, weddings, educational, studio, and feature films. I have also presented camera workshops at both Glasgow University and the University of the West of Scotland. Directing photography is my passion and I feel completely at home in the camera department.

Production Management

Glasgow University Student Television (2006-2009)

Acting as station controller, I was responsible for the smooth running, development and upkeep of the station as a whole. The role involved managing a team of editors and coordinators to ensure quality weekly content was produced, maintaining a good level of training and experience. In previous years I worked as Webmaster, Broadcast Co-ordinator and Arts Editor.

Runner

Ecosse Films, Sigma Films & Black Tar Productions (2009)

I worked as an office production runner / driver during pre-production on "Love Bite", a horror/comedy feature. I also worked as a daily runner on the feature film "Perfect Sense". The job involved crowd control, organising the extras, controlling paparazzi, and using two-way a radio. An inspiring experience which has given me a great respect for larger productions and the unstoppable dedication of their cast and crew.

Working on smaller productions has helped me gain confidence in working with new contacts, adjusting to different working environments and essentially working together towards a common goal.

Directing

GU & Production Attic LTD(2005 - ongoing)

I have been directing short films since I was a teenager. Whilst at university I directed a handful of short films and a documentary. More recently, I have directed corporate videos and commercials.

Education

Glasgow University

Audio and Video Engineering B.Eng. (2006 - 2010)

Robert Gordon's College

Advanced Higher

Physics (A), Maths (Pass)

Higher

Drama (A), Graphic Communication (A), Media Studies (Pass), 4 others (AAAC)
